LINUX TAG

11–14 May 2011 in Berlin
EUROPE'S LEADING OPEN SOURCE EVENT
www.linuxtag.org

Open Source moves:
Public Sector. Industry. Business.

Field reports from IT decision makers, for IT decision makers. For two days, May 11 and 12, 2011, professional speakers address issues they met and mastered using open-source solutions and during migration processes.

Visit the Business and Administration Congress and take part in the discussion. Benefit from the experiences of the experts.

Heads and Topics:

→ Smart minds – intelligent solutions (IBM)
→ It works: open source software in proprietary, commercial software products (Osborne Clark)
→ Low-Cost High-Impact Branding for Startups (jeffreygoldsmith.com)
→ ITIL-introduction with iTop (ITOMIG GmbH)
→ Advanced Clustered and Parallel Storage System Technologies in Action (IBM)
→ NAVALPlan: The Open Web Project Planning Tool (Igalia SL)
→ SugarCRM as a platform (SugarCRM)
→ QSOS: A Free Methodology to evaluate and choose Open Source Software (Fox Mobile Group; Atos Origin)
→ Community Based Free and Open Source Business Model (FOSS User Society)
→ SAP meets Open Source: processes between SAP and established Open Source applications suitable for business and across systems (it-novum GmbH)
→ LiMux – optimized project management in the city council of Munich (Stadtverwaltung München)
→ GovHub: Open Source – Open Data – Open Government (GovHub)
→ Release management for and with free software in the public sector (Landeshauptstadt München)
→ Tyrolese pocket knife meets Asterisk – the collaboration-software GROUP-E with CTI support (BYTESPRING E-Business Consulting & Solutions)

Note: Presentations are in English or German, depending on the speaker.
