5.15. Inspection of foodstuffs

If samples of foodstuffs are to be offered for consumption on site, or if food and drinks are to be sold on site, statutory provisions, in particular those of the Food Hygiene Regulation GVB1 and the Food and Utensils Law LMBG in their current amendments (BGBI), must be observed.

Any queries should be addressed to the Bezirksamt Charlottenburg-Wilmersdorf von Berlin, Veterinär- und Lebensmittelaufsichtsamt, Hohenzollerndamm 177, 10713 Berlin, tel. 030 / 9029-29 106/107.

6. Environmental protection

Messe Berlin is fundamentally committed to protecting the environment.

As the contractual partners of Messe Berlin, exhibitors are required to ensure that all provisions and rules are strictly adhered to by their contractors too.

6.1 Waste management

The basis for all following regulations is provided by the conditions of the recycling and waste management legislation (KrW-AbfG, in its current amendment), the associated implementing provisions and rules, as well as the law for the avoidance and disposal of waste and refuse in Berlin.

Exhibitors are responsible for correct and environmentally responsible waste disposal during construction, throughout the duration of the event, and during dismantling of their stands.

Technical arrangements for the disposal for recycling purposes and removal are the sole responsibility of Messe Berlin and its appointed contractual partners

6.1.1 Disposal of waste

In accordance with the principles of recycling, every effort should firstly be made to avoid the production of waste materials on exhibition grounds.

Caterers should avoid using disposable plates and cups.

Exhibitors and their contractual partners are required to make an effective contribution to such efforts at each stage of the event.

This objective must be pursued even at the planning stage and in coordinating the efforts of all those involved. In general reusable materials should be used in constructing and operating the stand, and should have the minimum environmental impact.

Any materials left behind will be disposed of without ascertaining their value, at the exhibitor's expense, and this will incur a higher charge.

6.1.2 Waste materials requiring special supervision

Exhibitors are required to report to Messe Berlin with details about any waste materials which, by their nature, condition or quantity, represent a health hazard (in particular food waste), are hazardous to the air or water, or are explosive or inflammable (e.g. batteries, paints, solvents, lubricants, dyes etc.), and to arrange for their correct disposal by the relevant contractual partners of Messe Berlin.

6.1.3 Waste materials brought in

Materials and waste that are not produced during the event and are not the result of the construction and dismantling work may not be brought onto the exhibition grounds.

6.2 Water, sewage, soil protection

6.2.1 Oil, fat separators

Water introduced into the mains may not contain higher levels of harmful materials than those allowed in regular domestic use.

Oil/grease extractors must be used if water containing oils or grease at higher levels than those specified is introduced into the sewage system.

Mobile caterers must ensure that grease and oils are retained and disposed of separately.

6.2.2 Cleaning / Cleaning products

All cleaning work must be carried out using biodegradable products.

In accordance with the regulations, cleaning products that contain hazardous solvents may only be used in exceptional cases.

Cleaning work during the event and during the construction and dismantling periods may only be carried out by the cleaning company appointed by Messe Berlin GmbH.

6.3 Environmental damage

Environmental damage/contamination (e.g. by petrol, oil, solvents, dyes) must be reported to Messe Berlin immediately.

6.4 Protection against noise

Every effort must be made to avoid unnecessary noise during construction and dismantling.

Noisy activities must be avoided on weekdays before 7 a.m. and after 6 p.m., on Saturdays after 4 p.m. and on Sundays and public holidays. This applies in particular to the halls 21b-23b as well as 25 and 26ab, which are adjacent to a residential area. In these halls the main doors must be kept closed.

Failure to observe these rules may result in construction and dismantling work being prohibited during the periods referred to above.
